Instructor Dashboard

Pinpoint by Perceivant

Instructors can evaluate student data and identify students who are at-risk for DFWI in a current course.

Pinpoint by Perceivant (for Canvas LMS) is designed to help institutions proactively monitor student engagement and quickly identify at-risk students for intervention. This easy-to-use dashboard provides immediate insight into student performance, and enables proactive intervention to get struggling students back on track.

IDENTIFY
Easily identify students who are at the highest risk for receiving a DFWI status.

INVESTIGATE
View individual click history to know if/when a student accessed a particular assignment.

INTERVENE
Quickly and efficiently message supplemental outreach to all at-risk students with one click.

STUDENTS

Name	Grade	Last Submission	Report
Bobby Dunbar	97%	11/06/22	View Student Report
Sally Welding	93%	11/07/22	View Student Report

At-Risk Students

Identifies students who are at risk of failing the course. This is calculated based on a combination of assignment completion, grades, frequency of access, time spent, and page views.

Class Averages

Provides a summary of the class's overall performance.

Message Students

Allows messaging students directly from Pinpoint to the student's inbox. Instructors can choose to send a message to an individual or multiple students.

When sending multiple messages, they are always sent as individual messages to each person listed.*

Student List

Lists student names, current grades, and last submission date for all the students, and has a **View Student Report** option.

Student Performance: Provides a visual breakdown of how all students are performing.

> Succeeding = In the top 75% for all categories
> Struggling = In the bottom 25% in time spent, page views, frequency of access, and/or assignment completion
> Failing = In the bottom 25% for all categories

Average Grade: Shows the current average course grade for the entire class.

% Assignment Completion: Shows the percent of assignments completed by the class.

* Additionally, instructors can quickly populate who to send a message to by selecting:
At Risk Students: Students currently at risk of failing
Students with a C: Students who have a current grade between 71-79%
Students below a C: Students who have below 71% in the course

ASSIGNMENT HISTORY

Assignment	Grade	Status	Due Date
Chapter 1 Quiz	3/10	Submitted	11/06/22
Par-Q Readiness for Physical Activity	5/5	Missing	11/07/22
Discussion: Establish a Healthy Concept	5/10	Late	11/03/22
Living Well Project: Establish a Healthy	5/10	Graded	11/08/22

1. Student Statistics

This area shows information on
> **Grade:** Student's current grade in the course
> **Missing:** Number of due assignments the student has not completed
> **Late:** Number of due assignments the student completed late
> **Activity Compared to Class:** Their participation compared to other students in the class (Participation is based on coursework submission, activity in discussions, completion of assignments, and other activities. Page Views is based on the number of page views in the course.)
> **Percent Complete:** The percent of due assignments completed by the student
> **Time Spent in Course:** Time in minutes and seconds they have spent in the course

2. Click History

This shows the page, action and date of each page the student visited in the course. This can be helpful in determining if a student accessed assignments on time.

3. Assignment History

This lists the assignments, current grade, status of completion (on time, missing, late, graded, submitted), and due date for the student.

Be proactive about keeping students from falling behind. Identify, monitor, and engage at-risk students and address problems when they are still solvable.
