Administrator Dashboard

Pinpoint by Perceivant

Evaluate student data across all courses and gain actionable insights from real-time reporting.

Pinpoint by Perceivant (for Canvas LMS) is designed to help institutions proactively monitor student engagement and quickly identify at-risk students for intervention. This easy-to-use dashboard provides immediate insight into student performance, and enables proactive intervention to get struggling students back on track.

IDENTIFY

Easily identify students who are at the highest risk for receiving a DFWI status.
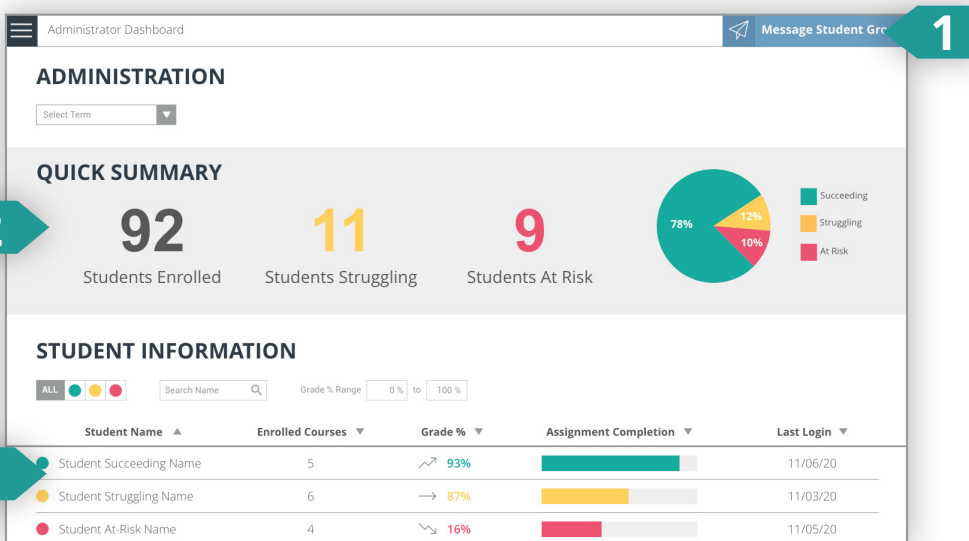

INVESTIGATE

View individual click history to know if/when a student accessed a particular assignment.

INTERVENE

Quickly and efficiently message supplemental outreach to all at-risk students with one click.

1. Message Students

Message students directly from Pinpoint to the student's inbox. AdministratorsInstructors can choose to send a message to an individual or multiple students.

When sending multiple messages, they are always sent as individual messages to each person listed.

2. Quick Summary

Receive a visual breakdown of how many students are enrolled in the selected term and how the students are performing.

> Succeeding = In the top 75% for all categories or all grades are above 80%

> Struggling = In the bottom 25% in time spent, page views, frequency of access, and/or assignment completion OR current grade in ANY course for the term is below 80%

> Failing = In the bottom 25% for all categories OR current grade in ANY course for the term is below 70%

3. Student Information

Easily identify students who are at risk for DFWI in any of their courses.

> Sort and search on specific criteria.

> Get a holistic view of student engagement and quickly identify gaps.

Student Name: Who the student is

Enrolled Courses: How many courses they are/were enrolled in for the selected term

Grade: Their current average grade across all courses and how that grade has trended (up, down, same) in the past 7 days

Assignment Completion: Their average assignment completion across all courses

Last Login: Date they last logged into their course

Last Submission: The last time they submitted an assignment, discussion post, quiz, etc.

● French	↘ 16%	3	1		+ 04:36:27	11/06/20

Be proactive about keeping students from falling behind.

Identify, monitor, and engage at-risk students and address problems when they are still solvable.

4. Student History

View all courses the student is currently enrolled in for that specific term.

5. Selected Term

> **Course Name:** The student's courses for the selected term

> **Grade:** Their current average grade across the course and how that grade has trended (up, down, same) in the past 7 days

> **Missing Assignments:** The number of assignments they are missing (based on due date)

> **Late Assignments:** The number of assignments they are late on (based on due date)

> **Assignment Completion:** Their average assignment completion across all courses

> **Time Spent vs Average:** +/-hours:minutes:seconds the student has spent engaged in a course vs the class average (This can help identify why someone might be behind in a course.)

> **Last Submission:** The last time they submitted an assignment, discussion post, quiz, etc.

6. Course Statistics

Access information related to a specific course in a specific term.

> **Grade:** Student's current grade in the course

> **Missing:** Number of due assignments the student has not completed

> **Late:** Number of due assignments the student completed late

> **Activity Compared to Class:** Their participation compared to other students in the class (Participation is based on coursework submission, activity in discussions, completion of assignments, and other activities. Page Views is based on the number of page views in the course.)

> **Percent Complete:** The percent of due assignments completed by the student

> **Time Spent in Course:** Time in minutes and seconds they have spent in the course

7. Click History

This shows the page, action and date of each page the student visited in the course. This can be helpful in determining if a student accessed assignments on time.

8. Assignment History

This lists the assignments, current grade, and status of completion (on time, missing, late) for the student.
