

Practical Content for

BEGINNING KINESIOLOGISTS

second edition

Matthew J. Garver, Ph.D. and Whitley J. Stone, Ph.D.

Contributing Author: Elizabeth L. Kelley, EdD

BRIEF

PART 1 Kinesiology: History, Growth, and Innovation

- Humans Are Movers
- What's Trending in Kinesiology?
- Research in Kinesiology
- Physical Activity and Well-Being

PART 2 Kinesiology: The Academic Subdisciplines

- Philosophy in Kinesiology
- Sociology in Kinesiology
- Psychology in Kinesiology
- Exercise Physiology
- Biomechanics
- Motor Behavior: Learning, Control, and Development
- Pedagogy in Kinesiology

PART 3 Your Path: Kinesiology Focused Careers

- Athletic Training
- Physical Therapy
- Occupational Therapy
- Fitness Training: Personal, Group, and Corporate
- Strength and Conditioning
- Sports Management
- Physical Education Teacher

PART 4 The Human Body: Anatomy, Physiology, and Energy

- The Heart, Lungs, and Blood Vessels
- Cardiorespiratory Fitness
- Bones, Nerves, and Skeletal Muscle
- Musculoskeletal Fitness
- Macronutrients and Micronutrients
- Bioenergetics and Fueling Activities
- Body Mass Index and Body Composition
- Measurement Techniques: Anthropometrics, Body Composition, and Energy Needs

TABLE OF CONTENTS

PART 1 Kinesiology: History, Growth, and Innovation

CHAPTER 1

Humans Are Movers

Physical Demands in Ancient Times

- Ancient Olympiad
- The Battle of Marathon

Physical Developments in Recent History

- Modern Olympics
- › Parade of Nations
- World Wars
- › COVID-19 and the Olympic Games
- Setting the Stage for the Growth of Kinesiology

Kinesiological Studies: Subdisciplines and Careers

- Key Academic Learnings Within Kinesiology
- Opportunities Arising from Kinesiological Studies
- › Who Is Drawn to Studying Kinesiology and Why?

Primary Organizations Supporting the Broad Scope of Kinesiology

CHAPTER 2

What's Trending in Kinesiology?

The Evolution of Activity Monitors and Wearables

- › The Story of Fitbit
- › Planes of Movement
- What's Next for Activity Monitoring?

Promoting Activity Through Technology

- › 23 and ½ Hours
- Home-Delivered Exercise

High-Intensity Interval and Functional Training

- High-Intensity Interval Training
- › Space Travel: HIIT Versus Moderate-Continuous Exercise
- High-Intensity Functional Training
- Programming for High-Intensity Training

Exercise Modalities for Special Populations

- Exercise with Older Adults
- › KAATSU Training: Blood Flow Restriction
- Exercise with Neurological Impairment
- › Underwater Treadmill Research

Career Peek: Exercise Oncology

CHAPTER 3

Research in Kinesiology

Introduction to Research

- Setting Up Research: Study Types
- Setting Up Research: Study Designs
- › The Research Question: Is Research Only for Brilliant Minds?
Terms and Concepts to Consider
- › If a Change Exists, Can You Detect It?

The Research Journey: From an Idea to a Publication

- Comparing Publications: Peer-reviewed to Non-refereed
- Finding Research Articles

Taking Meaning from Scholarly Work

- Types of Research Articles
- Tips for Reading Any Type of Research Article
- › Graphing Data for Post-Zombie Apocalypse
- Interpreting Graphs and Figures

Career Connection

Career Peek: Public Health Researcher

CHAPTER 4

Physical Activity and Well-Being

Perspective on Inactivity and Exercise

- Key Statistics About Physical Activity and Inactivity
- › Be the Change: Exercise Is Medicine on Campus
- Why Are We Physically Inactive?
- Choosing Physical Activity
- › Exemplifying the Active Life: The Hadza People

Health Versus Sport: Components of Physical Activity

- Health-Related Fitness
- Skill-Related Fitness

Getting the Most Out of Exercise

- Programming for "FITT"ness
- › Effort Predicts Risk for Disease
- Making Time for Physical Activity: Your 10,080 Minutes a Week

Sweat Equity: The Benefits of Physical Activity

- When Do the Benefits Start to Show?
- › Your Brain on Exercise

Wellness and Well-Being

- Influences on Well-Being
- Research Findings on Well-Being

Kinesiologists are Agents for Physical Activity and Well-Being

- Making Movement Accessible
- Goal Setting
- Behavior Change

Career Connection

Career Peek: Chiropractor

PART 2 Kinesiology: The Academic Subdisciplines

CHAPTER 5

Philosophy in Kinesiology

Defining Philosophy and Exploring the Historical Context

- › [The Socratic Method](#)

- The Historical Backdrop of Philosophy

- Development of Physical-Activity Related Philosophy

The Branches of Philosophy

- › [A Brief Look at Ethical Theories](#)

How Kinesiologists View Human Nature

- Philosophical Perspectives

- Philosophical Approach and Our Interactions

The Metaphysics of Games and Sports

- Defining Game

- Defining Sport

- › [Subdividing Sport: Games Versus Performances](#)

Applying Philosophical Concepts to Life

- Competitive Video Gaming: A Sport or Not a Sport?

- › [The World of eSports](#)

- › [Should Athletes' Behavior Be Overlooked?](#)

- Mechanical Doping: Crafty or Cheating?

- › [Mechanics Behind Mechanical Doping](#)

- Sportsmanship and Fair Play

- The Gray Line Between Permitted and Prohibited Performance Enhancement

- Moral Values in the Kinesiologist's Professional Environment

- › [Do Your Past Actions Hinder Your Future?](#)

Professional Support

Career Skills and Connection

- Philosophy in Practice

CHAPTER 6

Sociology in Kinesiology

Sociology of Sport: A Hobby or Career?

- › [The Fight to Create Sociology of Sport](#)

Viewing Sport Through a Sociologist's Lens

- Functionalism: Performance and the Status Quo

- Conflict Theory: Competition for Resources

- › [Moneyball: Financial Gains Tied to Collegiate Sports](#)

Integrating Fitness and Sport into Society

- Fitness, Social Media, and Yoga Pants

- Balancing Student and Athlete in Academic Institutions

- › [Wages and Demands on Workers](#)

- Redefining Gender Norms—A Search for Equity

- Race and Ethnicity in Sports

- Whose Platform Is It? Athletes, Social Justice, and Politics

- › [International Connection: Sports in Politics Abroad](#)

- Social Class in Sports

Career Support and Connection

- › [Asking the Right Questions](#)

Career Peek: Sport Marketing

CHAPTER 7

Psychology in Kinesiology

Where Sport and Exercise Psychology Began

- The First Sport Psychologists

- The Formative Years

- The Expansive Years

- › [Psychology Applied to Performance](#)

- Today's Sport and Exercise Psychology

Theories and Models: The Bedrock of Exercise and Sport Psychology

- Framing with Theories and Models for Movement

- › [What's Next for Theories and Models?](#)

- Theories and Models Specific to Sport

Strategies and Interventions

- Starting and Staying with Physical Activity, Exercise, or Rehabilitation

- Psychological Skills Training

- › [Into the Mind of an Olympian](#)

- › [Being in the Moment](#)

- Relaxation to Reduce Stress

- Competitive Environments

- › [What Might Help a Team Gel?](#)

Career Support and Connection

- Organizations and Peer Reviewed Publications

Career Peek: Sport Psychologist and Sport Psychology Consultant

CHAPTER 8

Exercise Physiology

- › [What Is an Exercise Physiologist?](#)

The History of Exercise Physiology

- The Early Giants of Exercise Physiology

- Current Areas of Investigation

Structure and Function: The Foundation of Exercise Physiology

- The Systems of the Body

- › [More Than Size or Strength: Function of Different Muscle Types](#)

- › [Quick Primer on Skeletal, Cardiac, and Smooth Muscle](#)

- › [The Hormone Insulin and the Metabolic Disease Called Diabetes](#)

Exercise Physiology in the World Around Us

- Characteristic Physiological Responses

Career Connection

Career Peek: Clinical Exercise Physiologist

CHAPTER 9

Biomechanics

- › [Biomechanics: Envisioning a Better World In Motion](#)

The History of Biomechanics

Bios (Life) and Mechanics: The Foundation of Biomechanics

- Kinematics

- › [Only Vectors Offer Direction](#)

- › [CoM During A Back Handspring](#)

- Kinetics

- › [21st Century Terminator or Robotic Workhorse?](#)

Applying Biomechanics

- › [Biomechanical Look at Running](#)

Career Connection

Career Peek: Sport Biomechanist

CHAPTER 10

Motor Behavior: Learning, Control, and Development

› Why Study Motor Behavior?

How Brain Surgery Influenced the Growth of Motor Behavior

The Brain as a Computer

› What Are You Focusing On? That is What You Will Learn!

› Memory Hacking: Moving Information from Short- to Long-Term Memory

Current Areas of Investigation

› Neuroimaging Devices: Functions and Applications

A Top Down Approach to Controlling Movement

The Cerebral Cortex

The Spinal Cord

› Do You Think When You Walk?

Motor Control Principles

Laws of Human Motor Control

› Math Predicts Movement: Fitts Knows How You Will Move!

› Fitts on Your Phone? How Fitts' Law Influences Your Digital Interaction

Motor Development Principles

› No Conversation Needed: How We Gather Data on Learning

Motor Development Early in Life

› Pruning in the Brain?

› A Child or a “Mini-Adult”?

Motor Development Later in Life

› Don't Take Age-Related Motor Losses Sitting Down!

Motor Learning Principles

Motor Learning and Practice

Motor Learning and Feedback

Career Connection

Career Peek: Orthotist and Prosthetist

CHAPTER 11

Pedagogy in Kinesiology

The Beginnings of Pedagogy

Influencers of Pedagogy in Kinesiology

› How One Woman Championed A New Academic Discipline

Pedagogy Today

Pedagogy: The Art and Science of Teaching

› How Physical Literacy Extends Beyond Physical Activity

Physical Education Pedagogists

› Why, When, and How to Assess Students in Physical Education

› I Loved the Parachute! But Why Did I Have to Run the Mile?

Sport Pedagogists

Pedagogy Methods and Implementation

Foundations of Teaching

Characteristics of Quality Pedagogy

Career Connection and Support

Career Peek: Sport Coach

PART 3 Your Path: Kinesiology Focused Careers

CHAPTER 12

Athletic Training

History of Athletic Training

The Near Future of Athletic Training

What to Expect Working in the Career

Organizations and Governing Bodies

Daily Tasks and Responsibilities

Scope of Practice

Typical Clientele and Areas of Practice

› An Interview with Jenny Scruggs, M.Ed., ATC, LAT

Preparation: Education, Certification, and State Regulations

Education: Meeting “Standards”

Certification: The BOCATC

State Regulatory Boards

A Thoughtful Look Ahead: The Career

Interview: What Employers Might Be Looking For

The Salary

Continuing Education

Barriers to Recognize

Career Peek: Physician Assistant

CHAPTER 13

Physical Therapy

History of Physical Therapy

What to Expect Working in the Career

Organizations and Governing Bodies

Daily Tasks and Responsibilities

Scope of Practice

› Physical Therapy Methods

Typical Clientele and Areas of Practice

› An Day in the Life of a Physical Therapist Dr. Rodney Weir, DPT

Professional Preparation: Undergraduate Education and Application Materials

Education: Prerequisites

Application Materials

A Thoughtful Look Ahead: Graduate School and the Career

Graduate Physical Therapy Coursework and Fieldwork

Licensure, Board Exams, and Specializations

› Standing Out as an Applicant from a DPT Faculty's Perspective

Dr. Don Hoover, PT, PhD, CSCS

Interview: What Employers Might be Looking For

Thoughts for Success: What Sets You Apart?

The Salary

Continuing Education

Barriers to Recognize

Career Peek: Physical Therapy Assistant

CHAPTER 14

Occupational Therapy

History of Occupational Therapy

The Near Future of Occupational Therapy

- › [An Interview with Amy Gibbs, OTR, MOT, CEIM](#)

What to Expect Working in the Career

Organizations and Governing Bodies
Daily Tasks and Responsibilities
Scope of Practice
Typical Clientele and Areas of Practice

Preparation: Undergraduate Education and Application Materials

- › [Where There Is a Will, There Might Be a Way](#)
Education: Completing the Prerequisites
Application Materials

A Thoughtful Look Ahead: Graduate School and the Career

Graduate Occupational Therapy Coursework and Fieldwork
Certification: The NBCOT
Advanced Certification
State Regulatory Boards
Interview: What Employers Might be Looking For
The Salary
Continuing Education
Barriers to Recognize

Career Peek: Occupational Therapy Assistant

CHAPTER 15

Fitness Training: Personal, Group, and Corporate

History of Fitness Training

The Nearer Past

What to Expect Working in a Fitness Career

Organizations and Governing Bodies
Daily Tasks and Responsibilities
Scope of Practice

- › [Where Is the Line for Giving Nutritional Guidance?](#)
Typical Clientele and Areas of Practice
- › [An Day in the Life of a Personal Trainer, Group Instructor, and Corporate Fitness Specialist Grant Bengston, Personal Trainer](#)
- › [Special Thoughts for the Corporate Fitness Professional](#)

Preparation: Education and Certifications

Education
› [Personal Versus Self-Guided Training: Any Measurable Differences?](#)
Certifications and Accredited Certifications

A Thoughtful Look Ahead: Entering and Maintaining Status

Interview: What Employers Might be Looking For
The Salary
Continuing Education
Barriers to Recognize

Career Peek: Health and Wellness Coach

CHAPTER 16

Strength and Conditioning

History of Strength and Conditioning

The Nearer Past

What to Expect Working in the Career

Organizations and Governing Bodies
Scope, Daily Tasks, and Responsibilities

- › [Surface Electromyography](#)
- › [What to do When Athletes Ask about Nutrition](#)
- › [A Day in the Life of a Strength and Conditioning Coach Robb Rogers, M.Ed., CSCS, MSCC](#)
Typical Clientele and Areas of Practice
- › [Strongman and Bodybuilding](#)

Preparation: Education, Certifications, and Specializations

Education: Degrees and Coursework
Certifications

A Thoughtful Look Ahead: Entering and Maintaining Status

The Interview: What Employers Might Be Looking For
The Salary
Continuing Education
Barriers to Recognize

Career Peek: Sports Scientist

CHAPTER 17

Sport Management

History of Sport Management

What to Expect Working in the Career

Organizations and Governing Bodies
› [Must-Have Sport Management Apps](#)
› [View from the Field: The Future of Sports After a Pandemic Dr. Tolga Ozyurtcu, Ph.D.](#)
Daily Tasks and Responsibilities

Specializing in a Sport Management Niche

Sport Marketing
Sports Media
Sports Accounting and Finance
Sport Law
› [Sport Law in the Real World](#)
Sports Events

Career Connection

Professional Sports
› [Leading United States Professional Sports](#)
University and Collegiate Sports
Sports Agency
› [Key Sports Agencies](#)
Sports Media and Communication
› [Mass Media for Sports](#)
Recreational Sports
National Governing Bodies
› [NGBs in the United States](#)
The Salary

Career Peek: Sport Facilities Manager

CHAPTER 18

Physical Education Teacher

History of Physical Education

The Nearer Past

- › [Justifying Quality Physical Education Programs](#)

What to Expect Working in the Career

Organizations and Governing Bodies

Daily Tasks and Responsibilities

- › [Metabolic Equivalents: How Hard Are You Working?](#)
Typical Clientele
- › [A Day in the Life of a Physical Educator Dr. Brandy Lynch, PhD, CSCS](#)
Scope of Practice

Preparation: Education and Licensure

Education: Degrees and Coursework

Licensure: Certifications, Board Exams, and Alternative Certification

A Thoughtful Look Ahead: The Career

The Interview: What Employers Might Be Looking For

The Salary

Barriers to Recognize

Career Peek: Adapted Physical Educator

PART 4 The Human Body: Anatomy, Physiology, and Energy

CHAPTER 19

The Heart, Lungs, and Blood Vessels

Anatomical Parts of the Heart, Lungs, and Blood Vessels

- › [Born with a Heart Defect](#)
Anatomy of the Lungs
Anatomy of the Blood Vessels
- › [Varicose Veins](#)

Integrated Roles of the Heart, Lungs, and Blood Vessels

The Essence of the Heart: A Critical Pump

- › [Heart Chambers](#)
Cardiorespiratory System: Integrated Heart and Lungs
Cardiovascular System: Integrated Heart and Blood Vessels
- › [Discovering Other Functions of Blood Vessels](#)

Cardiovascular and Respiratory Disease

Kinesiology Professionals and the Heart, Lungs, and Blood Vessels

Cardiorespiratory Fitness

Anatomy, Physiology, and Cardiorespiratory Fitness

- › [How Blood Is Directed During Exercise](#)

Assessing Cardiorespiratory Fitness

Measuring the Ability to “Consume” Oxygen

Differentiating Field-Based from Laboratory-Based Tests for Assessing CRF

Differentiating Submaximal from Maximal Testing

Tests Used to Determine Cardiorespiratory Fitness

- › [Working with the Best to Worst Fitness](#)

FITT and Exercise Prescription

Guiding Exercise Prescription with FITT

FITT and Healthful Goals

FITT-VP

- › [Apply FITT with Care](#)

CHAPTER 20

Bones, Nerves, and Skeletal Muscle

The Basic Anatomical Parts of the Bone, Nerve, and Skeletal Muscle

Anatomy of the Bone

- › [Growth and Health of Our Skeleton](#)

Anatomy of the Nerve

Anatomy of the Skeletal Muscle

The Integrated, Physiological Roles of the Bone, Nerve, and Skeletal Muscle

Joints: The Bones and Muscle Acting Together

Neuromuscular Control: The Nerve and Muscle Acting Together

- › [Cross Bridge and the Power Stroke](#)
- › [How Is Muscle Force Controlled?](#)

Musculoskeletal Health and Disease

Kinesiology Professionals and the Bones, Nerves, and Skeletal Muscle

Musculoskeletal Fitness

Benefits of Resistance Exercise

Assessing Muscular Fitness

- › [Think About These Resistance Exercise Facts!](#)

Field Based and Laboratory Based Tests for Assessing Bone, Nerve, and Skeletal Muscle

Tests Used to Determine Muscular Fitness

FITT and Exercise Prescription

- › [Isotonic Versus Isokinetic Resistance Equipment](#)

Guiding Exercise Prescription with FITT

FITT-VP

CHAPTER 21

Macronutrients and Micronutrients

Macronutrients: Nutrients That Give Energy to Live

Carbohydrates

Fats

Proteins

- › [Eating Food Is Like Filling Your Gas Tank](#)

Micronutrients: Compounds and Elements for Normal Function

Vitamins

Minerals

Water

Bioenergetics and Fueling Activities

Bioenergetics: Using Food to Fuel the Body

Adenosine Triphosphate: A Requirement for Cell Survival

The Metabolic Pathways

- › [Protein Builds Muscle, but Does It Fuel Muscle?](#)

Transitioning Between Metabolic Pathways

Proper Dietary Choices: Providing Fuel for Health, Fitness, and Disease Risk Reduction

Fuel Ideas for General Health

Fuel Ideas for Fitness

Fuel Ideas for Disease Reduction

CHAPTER 22

Body Mass Index and Body Composition

- › [Body Composition as It Relates to Different Tissues in the Body](#)

Obesity Epidemic

What Does It Mean to Be Overweight or Obese?

Causes of Obesity

- › [Classifying Fit Instead of Fat? A Broken Relationship Between Fitness and Fatness](#)

Eating Habits and Disorders

Eating for Energy Balance

Eating and Exercising Disorders

Wellness and Weight Management

Acceptable Level of Fat

- › [Medical Interventions to Combat Obesity](#)
Behavioral Choices and Considerations

Measurement Techniques: Anthropometrics, Body Composition, and Energy Needs

Body Mass Index

Anthropometrics and Body Composition

Anthropometric Assessments

- › [Correct Technique for Assessing Circumference](#)

Body Composition Assessments

- › [X-Ray Vision](#)

- › [Weight Loss for Competitive Sports](#)

Determining Energy Expenditure

REE from Popular Prediction Equations

REE When Activity Is Considered
