

# U.S. History

*U.S. History* is designed to meet the scope and sequence requirements of most introductory history courses. The text covers the breadth of the chronological history of the United States, providing a balanced approach that considers the people, events, and ideas that have shaped the country from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). *U.S. History* covers key forces that form the American experience, with particular attention to issues of race, class, and gender.
